- **Save the Date: Trauma After the Pandemic**
- **New SoNE Mailing Address**

Amazon Health and Your Personal Data

We love Amazon for many reasons. As the name suggests it's a huge and veritable jungle, chock-full of fabulous finds and steep discounts. In addition, no one will ever argue the logistics are outstanding, same day shipping, fast and easy returns, no questions asked. With vast product variety and availability, there is virtually nothing you cannot find. If you are an all-in Prime subscriber like most, you can also get music and movies.

Why is this important to HealthCare? Find out in this blog by SoNE HEALTH's Chief Information Officer, Renee Broadbent

SoNE HEALTH 3-Part Educational Series

Clinically Integrated Networks (CIN) Success in Value-Based Contracting

SoNE HEALTH is pleased to offer a 3-part educational series for our network providers and their practice administrators.

SoNE HEALTH **ACO Bootcamp, or Clinically Integrated Networks (CIN) Success in Value-Based Contracting** is a series of three seminars led by executives from Optum Advisory and Implementation Services, a nationally recognized healthcare consultancy. They draw on deep knowledge and expertise in this field based on clients across the country.

Our “true north” for 2023 is improved performance with the goal of superior shared savings opportunities for our network physicians. This education series will enable you to maximize your knowledge and outcomes in order to contribute to our shared success.

We encourage you to attend all three sessions; however if you are unable to participate in the full series, you are welcome to participate at whatever level works for your schedule. Details are below; we look forward to seeing you!

Session 1

**Clinically Integrated Networks:
CIN 101**

Thursday, April 27

7:30-8:30 AM

Virtual

This session will focus on defining what a CIN is and how a CIN reaches maturity. We will discuss SoNE as a CIN and the programs SoNE has in place now. Lastly, we will discuss how high performing CINs such as SoNE can be a competitive advantage in the shift to value-based care that is occurring in the healthcare marketplace.

Session 2

SoNE HEALTH: Organizational and Market Current State

Wednesday, May 24th

7:30-8:30 AM

Virtual

This session will focus on the impact of trends and market conditions at the local level and make clear the burning platform for change that will impact our SoNE providers. After reviewing national and local healthcare trends, in addition to current "market disruptors," we will discuss what this means for SoNE. The

session will wrap up with discussion focusing on current efforts and initiatives such as network enablement, value-based contracts and incentives, plus direct to employer and digital strategy.

Session 3

Call To Action: What is Your Current Positioning? Where Do We Need to Get To In The Future State?

Tuesday, June 6th

4:00-5:15 PM

The Bushnell Center for Performing Arts, Hartford, CT

Seaverns Room

This session will be dedicated to assessing SoNE's current position on the CIN maturity continuum. We will discuss where we need to get to in the future state and what needs to be done by SoNE and our network providers to get there. We will wrap the session up with the call to action and the understanding that the primary competitive advantage of a mature CIN is the engagement and partnership of its network physicians to optimize performance.
